

Inline Pasteurizer

- ALKAR-RapidPak's Inline Pasteurizer is a self-contained pasteurizing system for whole muscle products, such as hams, formed hams, turkey breasts, turkey logs, etc.
- Achieves greater than 2 log kill of *Listeria monocytogenes*.
- Easy access to internal compartments for faster cleaning.
- Cost-effective utility consumption.
- Clean Label – No label impact; no addition of antimicrobial spray.
- Improved uniformity when compared to antimicrobial technology.
- Safety – The Inline Pasteurizer offers no increased worker safety issues.
- Cost Per Pound – Lowest cost per pound to Alternative 2.
- Process Control – Windows-based control system logs all the set points and alarms if any deviations.
- No slicing impact.
- No additional chilling required when product is delivered to the Inline Pasteurizer at 27°F core temperature.
- Shelf Life Increase – Killing spoilage bacteria.
