

Collator Style Autoloader

To align frankfurters, sausages, vienna sausages, snack sticks, pickles, and other products for packaging. Customized models enable flexible film, can, tray, box, and jar loading. Versatile modular heads offer quick changeover time for different packaging applications.

- Up to 1,300 pieces per minute*
- Diameter range: 12mm to 32mm
- 98%+ fill rate
- Rapid changeover modular head
- Loads product with or without casing
- Touch screen controls
- Conforms to AMI sanitary equipment design principles

*Final output speed is dependent on product specifications and the packaging machine.
Guarding may be removed in some images for demonstration purposes.

DRAKE COLLATOR STYLE AUTOLOADER

MODEL CS-1300

The Drake Model CS-1300 autoloader boasts the smallest footprint of Drake's collator style, high-speed, open channel autoloaders.

This collator style loader is made with a unique, state-of-the-art handling method that minimizes recirculation of product by using a first-in, first-out system.

The unit can handle up to 1,300 pieces per minute of a 127mm (5 inches) long product and has a 98% fill rate. The CS-1300 is able to load frankfurters that are cooked or chilled and can handle skinless or skin-on products.

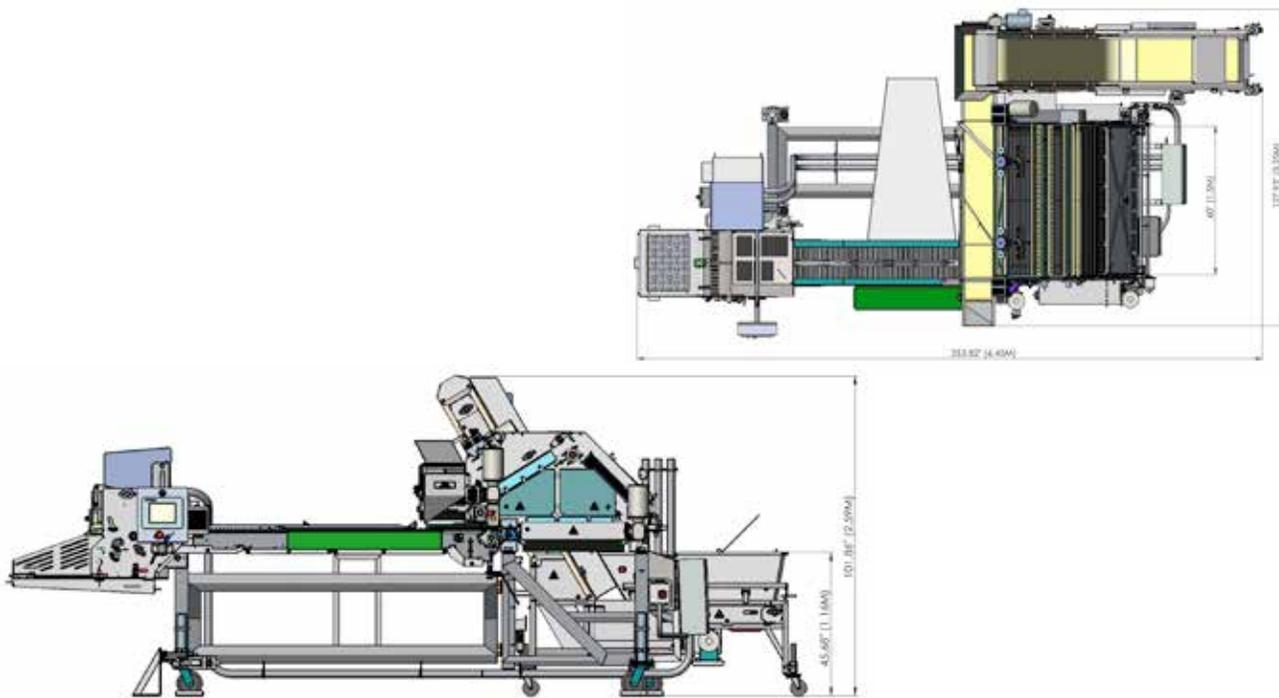

Drake's Model CS-1300 autoloader processes

frankfurters from 12mm to 32mm in diameter and from 76mm (3 inches) to 300mm (12 inches) in length.

The CS-1300 is exceptionally durable. The intermediate conveyor inspection flights are made of rugged stainless steel, as is most of the machine, making it the toughest loader on the market.

All Drake autoloaders feature touch screen controls, allowing for easy addition of new recipes and rapid adjustment to various areas of the loader.

All Drake loaders are proudly made in the USA.
