

Control and documentation systems

TITAN 2

12" operating controls for SPS control

- Display with text and symbols
- Almost all languages available
- Touch screen operation

Area of application

For all systems

Features

- Operation of up to 8 installations with SPS control
- Integrated data recording in short-term archive (approximately 1 week)
- Future-oriented network communication via TCP/IP
- Can be connected to TITAN 2 PC and MIPAS
- Maximum of 100 programs

Siemens® S7

Simatic S7 control with 15" Simatic panel

Flexible visualization with Win-CC

Area of application

For continuous unit systems

Control and documentation systems
